NRF2

DUAL SYNERGIZER™

AGE IS MORE THAN A STATE OF MIND

Protandim Nrf2 & NRF1 Synergizers use ingredients to reduce oxidative stress and support mitochondria production to fight the effects of aging, and increase health at the cellular level.

PROTANDIM—HEALTH THROUGH NUTRIGENOMICS

LifeVantage uses nutrition to improve gene expression for a happier, healthier life. It's called nutrigenomics, and it's changing

TURN BACK THE CELLULAR CLOCK

Our vision for reversing the effects of aging was simple: combat oxidative stress at the cellular level. Stronger, healthier cells for a healthier life. And our Protandim Nrf2 Synergizer delivered. In fact, it's the only supplement proven in a clinical study to reduce oxidative stress in humans by an average of 40 percent in 30 days.

MIGHTY MITOCHONDRIA

Less energy, more aches and pangs, wrinkles, and all that extra time it takes you to get out of bed in the morning. These are telltale signs of aging due to

a breakdown in mitochondria production. Mitochondria are the powerhouses of your cells. They make ATP (Adenosine Triphosphate)—the fuel that pumps your heart, supports muscle growth and encourages healthy brain function. As your mitochondria decay, you lose ATP and the source of 95% of your body's energy goes down the drain.

EVERY ENGINE NEEDS THE RIGHT FUEL

When you create more mitochondria and increase ATP levels, you end up with more youthful cells- without the questionable life choices. And now you can take on aging with two revolutionary Protandim products.

PROTANDIM NRF2 SYNERGIZER

DEFY AGE THE NATURAL WAY

By waking up your body's ability to produce antioxidants with five potent botanicals, Protandim Nrf2 Synergizer, takes the damaging effects of aging head on. And it's the only supplement proven in a clinical study to reduce oxidative stress in humans by an average of 40 percent in 30 days.

PROTANDIM NRF2 SYNERGIZER CAN HELP YOUR BODY:

- Reduce oxidative stress*
- Combat the effects of aging caused by oxidative stress*
- Activate Nrf2 protein to turn on natural antioxidant production*
- Repair and rejuvenate damaged cells*
- Protect cells from free radical damage*

PROTANDIM NRF1 SYNERGIZER

A BRAND NEW WAY TO POWER YOUR CELLS

Using nutrigenomics, our research shows that keeping your mitochondria functioning at peak performance starts with the NRF1 pathway. By activating that pathway, Protandim NRF1 Synergizer turns on mitochondrial function and biogenesis. Like flipping a light switch, Protandim NRF1 Synergizer instructs your cells to produce more mitochondria. And that gives your cells the energy you need to feel more active, alert, and younger.

PROTANDIM NRF1 SYNERGIZER IS DESIGNED TO:

- Improved performance through energy production*
- Enhanced cellular health—cells function at peak performance*
- Increased cellular energy (ATP)*
- Better sleep quality and promotes cellular repair*
- More mitochondria production and their ability to network*
- Slower cellular aging by supporting chromosome integrity*
